INFLATABLE BATTERY LAMP 6X12 RGBW

BATTERY-POWERED
INFLATABLE LAMP 6×15W
RGBW IP65

Reference: ZZENAIRTUBE

BATTERY-POWERED INFLATABLE LAMP 6×15W RGBW IP65

ZZENAIRTUBE is a battery-powered inflatable lamp with 6 high-brightness 15W 4-in-1 OSRAM LEDs, IP65 protection rating, and an indicative battery life of up to 8 hours in RGBW mode and up to 12 hours in single color or color change mode.

Full control via DMX, infrared remote control, master/slave control, strobe, and Auto/Sound/Fade modes. Automatic inflation in 1 minute after power-on. Waterproof luminescent fabric material with soft light, ultra-high frequency technology (64 KHZ), no jitter or flicker.

Technical specifications:

- Input voltage: AC100V-250V/50-60HZ
- Power: 90W
- Light source: 6 high-brightness 15W OSRAM LEDs (4 in 1)
- Colors: 16.7 million color variations
- Waterproof rating: IP65
- DMX channels: 8
- Output: 360°
- Light source lifespan: 50000 hours
- Control: DMX, master-slave control, strobe, infrared remote control
- Battery: lithium battery with 19200 mAh capacity
- Charging time: 8 hours for a full charge
- Autonomy: Full RGBW up to 8 hours, single color up to 12 hours
- Duration 12 hours in color change mode
- Full inflation in just over 1 minute after power-on
- All-aluminum body for heat dissipation
- Uniform luminescence
- Waterproof base structure design
- Waterproof luminescent fabric material with soft light
- Ultra-high refresh rate LED technology (64KHz), no jitter or flicker
- Dimensions: Diameter 460 mm x Height 3200 mm
- Net weight: 8 Kg
