VOICE EVACUATION CABLES - CERTIFIED CPR CLASS C 2X1,50 PURPLE 100MT

Cable for evacuation systems - PH120 - Class Cca CPR - 2x1,50 mm - with sheath without halogens and with low smoke generation.
For audio cabling in evacuation systems and PA applications.

Reference: TSK202CPR

L.S.Z.H. purple color M1 grade outer sheath. RAL 4005.
Flame retardant and halogen free.
Resistant to direct fire for 120 minutes at max 850 ø C.
external cable: 7.80 (ñ 0.20) mm.
Insulating core in silicone rubber grade G4, colored red and one black. Wrapped together and grouped with PET tape.
Nom. : 2.80 (ñ 0.20) mm.
O.F.C. red copper formation 28x0.25 mm.
Nom. Cross section 2x1.50 mmý.
Ownership:
Conductor resistance 13.30 Ohm / Km
Capacity 60 pF / m
Maximum rated voltage 100 V
Maximum traction force 15 kg / 150N
Impedance 110 Ohm
Min. 10xouter bending radius
Operating temperature -30 / + 70 ø C
Temperature under fire 850 ø C / 120 min.
RoHS3 Compliant: Ver. C / 22.05.20
