LED STRIP CABLE 4RGB WHITE 4X0,22

Flat white split multi-conductor cable with double sheath insulation, extremely soft and extra fl exible.
Particularly suitable for RGB LED use.

Reference: TSK1170

Flat cable with several conductors (See Electronics Catalog)
APPLICATIONS Electronic power supply and LED
Flame retardant soft white PVC - RAL 9010.
External dimension of the cable: 2,5x10,0 (ñ 0,20) mm
4 single conductors covered in flame retardant soft PVC, colored in red, green, blue and black.
Outside diameter of the cable. 1.20 (ñ 0.20) mm.
Red copper stranded formation O.F.C. 7x0.20 mm.
Nom. Section 4x0.22 mmý.
Ownership:
Conductor resistance 79.15 Ohm / Km
Maximum rated voltage 49 V
Operating temperature -20 / + 70 ø C
RoHS2 Compliant: Ver. A / 26.05.17
