
COMPACT SMOKE MACHINE 1500W

3000W horizontal smoke machine

Reference: ZZFM3000

3000W Smoke Machine

One of the most high-performing machines on the market. It is equipped with a microprocessor, electronic temperature control system, high-precision temperature control PCB, and brand-new professional heating elements.

The integrated LCD control panel allows for timer function with adjustable output. Extraordinary output flow. Homogeneous smoke even at 1% power. Controllable via integrated panel, 1-channel DMX, and included remote control.

Technical Specifications

- Power: 3000W
- Heating Time: 5 minutes
- Liquid Consumption: 300ml/min
- Emission: 600m³/min
- Tank Capacity: 6 liters
- Output Jet: 10 meters
- Controls: Integrated panel, Wireless remote control, 1-channel DMX
- Dimensions: 510 x 331 x 335mm
- Weight: 15.4kg
