NON-PYROTECHNIC LIGHT FOUNTAIN

Luminous fountain effect, generates a fountain of cold non-pyrotechnic sparks.

Reference: ZZSPARCOLDM

Vertical Jet Fountain Light Effect

Luminous effects that generate vertical jet fountains up to 5 meters in height. Easy to control and configurable in a few minutes, they do not require any license and can be freely used as a non-pyrotechnic product.

They are equipped with a convenient remote control that allows you to control the start, stop, and height of the effect. By using the built-in DMX control, extraordinary luminous shows can be created by managing every parameter of the machines with maximum precision.

Technical Specifications

- Non-pyrotechnic effect
