NON-PYROTECHNIC LIGHT FOUNTAIN EFFECT WITH MOVING HEAD BODY

Fountain streamers effect with moving head. Generates a light fountain up to 5m high.

Reference: ZZSPARMOVE

Motorized Light Fountain Effect

The revolution in the world of non-pyrotechnic effects combines the unique features of the ZZSPARCOLD series with the versatility of a moving head, creating never-before-seen shows. 360° pan and 90° tilt allow for a range of movements never seen before in this type of machine.

The integrated DMX control protocol allows for the easy and fast creation of spectacular mobile light fountains to take the show to a new level.

Compact, lightweight, and extremely robust, the ZZSPARMOVE represents the new frontier of light fountain effect machines.
