Battery-powered LED Par with 6 RGBWA+UV 12W LEDs

For all outdoor applications where a powerful yet compact spotlight is needed, ZZENxx12BWP is the right solution. With their 6-in-1 LEDs, they cover the entire color range, adding amber and ultraviolet colors in addition to the standard RGBW.

With their battery operation, they provide 4 hours of autonomy in full color and over 15 hours with a single color after just a 3-hour recharge. The included supports allow for ground installation or hanging on trusses with a 180° tilt. Wireless DMX control and infrared remote control complete the rich features of these LED Pars.

This product is equipped with an integrated wireless DMX receiver for greater flexibility of use.

For remote control, you can connect it to our [ZZENAIR](#) Wireless DMX 512ch Transmitter/Receiver system.
