
BATTERY-POWERED LED BAR WITH 12 RGBWA+UV LEDS AT 12W - IP65

Battery-powered LED bar 12
LED RGBWA + UV 12W IP65

Reference: ZZEN1212BWW

Battery-Powered 12W RGBWA+UV 12-LED IP65 LED Bar

The ZZEN1212xx series comes into play when extra lighting power is needed. Thanks to its powerful 12W 6-in-1 LEDs, these projectors generate a total wireless configuration of 144W of power.

With their battery operation, they guarantee 4 hours of full-color autonomy and up to 20 hours with a single color after a full charge.

Suitable for outdoor work, they become essential for illuminating large areas or when the projection point is far from the subject.

Controllable via wireless DMX or remote control, they offer the utmost convenience and power.

Technical Specifications

- Nominal Voltage: 90V-240VAC, 50/60Hz
- Power Consumption: 144W
- LEDs: 12x 12W RGBWAUV (6-in-1)
- Rated Lamp Life: >50,000 hours
- Beam Angle: 40°
- DMX512 Channels: 6 / 7 / 8 / 12 / 36 / 41 / 48 / 60 / 72 / 77
- Dimming: 0-100%
- Each LED is individually controllable
- Wireless DMX and IR remote control
- Strobe: Independent electronic strobe, adjustable speed from 0 to 20 times per second
- Battery Operation Time: 3h:30' to 4 hours in color mode, 18-20 hours in monochrome mode
- Control Mode: DMX512 control, AUTO execution, MASTER/SLAVE, SOUND
- Dimensions: 675 x 78 x 166 mm
- Net Weight: 7 kg
