# WIRED SLIM PROFILE PAR LIGHT FOR OUTDOOR USE WITH 20 RGBWA+UV LEDS AT 8W - IP65

Par LED Wall washer RGBW  
21 x 8W IP65

Reference: ZZEN2108WP

## RGBW LED Wall Washer PAR 21 x 8W IP65

The most powerful PAR in the series, when significantly higher power is needed. Powerful fixtures with a compact design and aluminum extrusion construction guarantee unmatched durability and thermal efficiency. The perfect choice for large installations where the subjects to be illuminated are particularly important or for large stages.

The included mounts allow for ground installation or hanging on trusses with an inclination of over 180°.

Suitable for outdoor use, they become indispensable for illuminating large areas or when the projection point is far from the subject.

Controllable via wireless DMX or remote control, they provide maximum convenience and power.
