CONTROLLER A PARETE PER AMPLIFICATORI BLAZE US BIANCO

Any Blaze PowerZone Connect amplifier can be remotely controlled with the Wall-S1 network/PoE controller.

It's easy to install, set up, configure, and customize for any system in any location. Zone control for source and volume can be activated in seconds.

Reference: WALL-S1-W-US

Zone Controller Wall-S1 on Network/PoE

Sound control in any room and from anywhere. The Wall-S1 is a wall-mounted network/PoE controller for remote control of any Blaze Audio PowerZone Connect amplifier. It allows end-users to control input source, volume, and many advanced functions and settings that system installers can configure and customize to meet the needs of a specific location. It's easy to set up, configure, and customize for any installed system and sound zone.

With the ability to pair up to 8 Wall-S1 controllers per amplifier and assign devices to any of the configured audio zones, installers can easily set up projects with this straightforward solution. Real-time synchronization of devices in the same zone, PIN code protection for system security and access, and customizable color screen and backlighting are some of the advanced features that can be customized for the perfect fit in any location.

Technical Specifications:

- BLAZE AUDIO amplifier compatibility - PowerZone Connect series
- Operating temperature range: 0-40°C
- Display screen size (excluding black border): 27.72 mm x 27.72 mm
- Display screen area (excluding black border): 768.4 mm²
- Display screen resolution: 240 x 240 pixels
- Screen type: RGB, Transmissive / Normally black
- Display screen material: High-gloss polished transparent acrylic
- External and mechanical parts material: Plastic (ABS-PC)
- Construction material: Pre-galvanized steel
- PoE Power Consumption: Class 1 / 3.84 W max
- Power supply via RJ45 Ethernet port on the back of the device using a Category 5e (or faster STP) cable with the use of a standard PoE switch or PoE injector
- Standby mode: 6 available settings: 30 seconds, 2 minutes, 5 minutes, 15 minutes, 30 minutes, 60 minutes
- Data connection and protocol: RJ45, Blaze Audio proprietary on CAT 5e (or faster STP)
- Maximum cable length (CAT 5e): 100 m
- IP Protection Rating: IP 30
- Color: White (RAL9003)
- External dimensions (H x L): 115.1 x 70.6 mm
- External dimensions, depth: 23.1 mm
- External dimensions, depth [from knob tip]: 42.8 mm
- Mounting holes: 83.5 mm

- Weight: 120 g
