
15 "AMPLIFIED SUBWOOFER WITH WOODEN HOUSES, 550W

Amplified subwoofer with high-density multilayer wooden case. High performance and extremely lightweight thanks to Class D technology. By significantly reducing the dispersed heat, the ZZAR series can afford to mount more compact components, thereby reducing the weight of their subwoofers while maintaining their power. The internal DSP allows for adjustment of crossover frequencies and equalization to always achieve the best pairing with any satellite that is chosen to be used.

Reference: ZZAR315SUB

15" Powered Subwoofer

Amplified subwoofer with high-density multilayer wooden case. High performance and extremely lightweight thanks to Class D technology. By significantly reducing the dispersed heat, the ZZAR series can afford to mount more compact components, thereby reducing the weight of their subwoofers while maintaining their power. The internal DSP allows for adjustment of crossover frequencies and equalization to always achieve the best pairing with any satellite that is chosen to be used.

- System: Subwoofer 1 x 15"
- Frequency response: 30 - 200 Hz
- Max SPL: 125 dB
- RMS Power: 550 W
- Amplifier: Class D
- DSP: 48 KHz @ 24 bit
- Cabinet: Wood
- Dimensions: 610 x 540 x 620 mm
- Weight: 34 Kg
