SMOKE BUBBLE MACHINE WITH 4 OUTPUTS AND FLIGHTCASE

Smoke bubble machine, generates soap bubbles full of smoke.

Reference: ZZBUBBLE4

Bubble Machine with Smoke, Including Flightcase

ZZBUBBLE4 generates bubbles filled with characteristic smoke. Excess fluid flows back into the container, keeping the surrounding area clean. Thanks to its innovative tank, the machine can also be installed in suspension. Its versatility allows it to be used for shows, parties, concerts, and events.

Impressive and spectacular machine generates a multitude of bubbles that release smoke upon bursting. Unique in its kind for an unprecedented show.
