DOUBLE UHF RADIOMICROPHONE SET 2 X 48 CH - 606 - 630 Mhz

DOUBLE UHF RADIOMICROPHONE SET 2 X 48 CH - 606 - 630 Mhz

Reference: TXZZ420

DOUBLE UHF RADIOMICROPHONE SET 2 X 48 CH - 606 - 630 Mhz

Discover the powerful UHF radio receiver, tuned to a frequency range from 606 to 630 MHz, complete with an advanced multi-channel PLL-Synthesizer system and a latest-generation chip to ensure optimal signal quality. Perfect for applications requiring reliability and robustness, this device offers crystal clear frequency response and minimal distortion. With IR connection for instant transmitter pairing and a convenient front USB port for battery charging, it is the ideal choice for smooth operation. High-quality transmitters are capable of capturing every frequency precisely even under adverse conditions, thanks to the dual noise reduction circuit. With its exceptional presence and clarity, this device is a reliable and easy-to-use solution that is unmatched in its price range.
Handheld microphones with rechargeable battery.

Technical features:

- Type: 2-channel RX
- Kit: 2 handheld microphones;
- Frequency range: 606-630 MHz;
- LED display: indicates receiver and transmitter information;
- Squelch: Yes;
- Technology: IR SYNC;
- Frequency response: 40 - 17000 Hz;
- T.H.D.: <1%
- RF power: <30 mW;
- Bandwidth: 300 KHz;
- Sensitivity: >90dBm;
- Output impedance: 600 Ohms
- Output connector: XLR and 6.3 mm Jack;
- Dimensions (W x H x D): 480 x 49 x 195 mm
