HDMI 2.1 8K FIBER OPTIC CABLE 48GBPS - 100M

HDMI 2.1 8K Fiber Optic Cable 48Gbps - 100 m

Reference: HDZZAOC100

HDMI 2.1 8K Fiber Optic Cable 48Gbps - 100 m

Fiber optic AOC (Active Optical Cable) for connecting two HDMI® devices, transmitting audio and video with up to 8K60Hz quality over long distances. For example, you can connect a PC, laptop, decoder, Blu-ray player, etc., to a monitor or HDTV.

Fiber optic transmission can cover greater distances without signal quality loss.
They are immune to electromagnetic interference (EMI).
Dynamic HDR and 3D effects further optimize the visual quality of the image.
