COMPACT SMOKE MACHINE 2200W

2200W Smoke Machine

Reference: ZZFM220X

2200W Smoke Machine

This new series of smoke machines combines the highest demands of professional users with a highly competitive price.

The ZZFM models stand out for an extremely powerful output, with the possibility of continuous delivery even at reduced emission. The smoke volume can be adjusted from 0% to 100%, with various control modes available, including manual with timer via display and buttons, RF remote control, and full DMX control.

The robust housing ensures durability and long-term reliability. The solid, resistant suspension bracket features a toothed orientation mechanism that guarantees precise locking at various angles and is designed for use with an OMEGA bracket.

The machine is equipped with 3-pin and 5-pin XLR connectors to ensure maximum compatibility and with a PowerCON TRUE input. The power switch is illuminated for easy identification, and the fluid tank is provided with a level monitor with a clear indication when the tank is empty.

Technical specifications

- Power: 2200W
- Coverage output: 1274 m³/min
- Warm-up time: 7 minutes
- Fluid consumption: 30-150 ml/min
- Tank capacity: 3 litres
- Beam length: 7-10 metres
- Burst duration: ≈ 76 s
- Recharge time: ≈ 136 s
- Controls: on-board display, DMX, remote control
- Power supply: AC 220-240 V, 50 Hz
- Dimensions: 460 × 400 × 210 mm
- Weight: 12.1 kg
