HDMI 2.1 8K FIBER OPTIC
CABLE 48gbps - 20 m WITH
REMOVABLE CONNECTOR

Reference: HDZZAOC20ARC

HDMI 2.1 8K FIBER OPTIC CABLE 48gbps - 20 m WITH REMOVABLE CONNECTOR

AOC (Active Optical Cable) fiber optic cable to connect two HDMI® devices, transmitting audio and video with quality up to 8K60Hz over a long distance. For example, a PC, notebook, decoder, Blu-ray player, etc., can be connected to a video display or HDTV.

Fiber optic transmission can cover longer distances without loss in signal quality.

They are immune to electromagnetic interference (EMI).

Dynamic HDR and 3D effects further optimize the visual effect of the image.
