Continuous Flow Fog Machine

We find all the quality and robustness of the ZZFM series also in the HAZZE fog effect machines. Compared to smoke machines, fog machines are designed for a continuous flow in which the device continues to emit the effect. Less power concentrated in a few supplies but a continuous flow that fills the rooms to enhance the play of light or create suggestions.

Technical specifications:

- Power 1200W
- Warm-up time 2.5 minutes
- Fluid consumption 0.5-24ml/min
- Emission: 200 m³/min
- Electronic temperature control
- 2-channel DMX control
- Pump block for liquid end
- Electronic flow control
- Nozzle self-cleaning
- Tank capacity 5 litres
- Silent operation
- Dimensions 535 x 315 x 380mm
- Weight 12.2Kg
