
SET OF STANDS FOR LAMPS WITH 3M CROSSBAR IN METAL

TELESCOPIC SUPPORT FOR
LIGHTS WITH CROSSBAR

Reference: LSZZ001

Telescopic Light Stand with Crossbar

Telescopic light stand with a bridge system, practical, lightweight, and stable, incredibly easy to assemble and with extraordinary load capacity. The structure consists of two telescopic tripods that ensure stability to the entire system, a two-piece crossbar that makes transport practical and easy, and 2 "T" bars to expand the usable surface and connect all the necessary lights. With LSZZ001, every device will find space in a stable and extremely portable structure!
