
TELESCOPIC STAND FOR HEADLIGHTS WITH CRANK HARD STEEL VERSION

TELESCOPIC LIGHTS STAND
H 3.3M

Reference: LSZZ022

Telescopic Stand for Lights, Maximum Height 3.3m

Compared to speaker stands, light stands have slightly lower load capacities but can reach much greater heights. The LSZZ series light stands are the perfect mix of robustness and lightweight design. Three points of support for maximum stability and weighted bases for maximum safety. Excellent selection of models based on load capacity, height, and budget. All stands include a horizontal "T" bar for mounting lights.
