MICROPHONE SET UHF
674.20 / 694.00

Reference: TXZZ520

Double wireless microphone set with fixed frequency UHF bodypack transmitter

Fixed frequency UHF double wireless microphone set with 2 transmitters. Latest generation chip designed for an optimal rendering of the signal.

Ideal in all those situations where a basic product but reliable and robust. UHF in FM modulation with frequency response crystal clear and distortion at very low levels for this one price range.

Technical specifications

- Frequency: 674.20 / 694.00 MHz
- Set with 2 bodypack wireless microphones
- Information display
- Auto squelch circuit
- Unidirectional dynamic capsule for crystal clear sound
- XLR output, balanced
- 6.35 mm unbalanced jack output
- Efficient and energy-efficient construction
- 1 audio cable included
- 4 1.5V AA batteries supplied
- Frequency response: 100 -18000Hz
- THD: < 1 %
- MSR: >100dB
- Operating temperature: -10 - 50°C
- S/N Ratio: >85dB
- Output level: 0-300mV
- Sensitivity: -105dB
- Dimensions: 210 x 145 x 42mm

Transmitter

- RF out: >10dBm
- Maximum deviation: +/- 70KHz
- Power supply: 2 AA 1.5V batteries
- Dimensions: 100 x 65 x 30mm
