
DOUBLE SET UHF 48 CHANNELS, HANDHELD + BODYPACK

WIRELESS MICROPHONE SET
WITH 1 GELATO AND ONE
UHF 48CH HEADSET

Reference: TXZZ582

48-channel UHF dual microphone set with handheld transmitter and bodypack

The new UHF wireless microphone set with frequencies from 512 to 652MHz. 48 selectable channels, with the latest generation chip designed for optimal signal performance.

Ideal in all those situations where an essential but reliable and robust product is required. UHF in FM modulation with crystalline frequency response and distortion at very low levels for this price range.

Very comfortable informative display with indications of battery level, carrier signal level, audio level, frequency and mute status. Double transmitter version.
