
PROFESSIONAL SMOKE MACHINE MOUNTED ON A STRONG FLIGHTCASE

LOW FOG MACHINE

Reference: ZZFMLOW

Low Fog Machine 2000W

Professional low fog machine mounted on a convenient and sturdy flight case with 4 swivel wheels. It produces dense fog that remains close to the ground, creating an evocative effect. Suitable for large stages and theaters, it has multiple applications.

The included hose allows placing the machine away from the actual fog output point and offers the opportunity to irradiate the area from different angles with a single machine. It operates simply and does not require dry ice or expensive CO2 cylinders.

It works with simple nebulized water combined with regular fog liquid. It provides maximum scenic effect with minimal resource consumption.

Technical Specifications

- Power: 2000W
- Warm-up Time: 3.5 minutes
- Control: DMX, Integrated Control Panel
- Fog Liquid Tank: 2.5 liters
- Water Tank: 10 liters
- Area Coverage: 200 m²
- Liquid Consumption: 1-40ml/min
- Water Consumption: 90ml/min
- Dimensions: 760 x 440 x 550mm
- Weight: 42kg
