
8 "AMPLIFIED LOUDSPEAKER WITH BLUETOOTH, 80W

Amplified speaker with bluetooth connectivity and mp3 player USB / SD and TWS function (for wireless connection of 2 speakers)

Reference: ZZPK108

Bluetooth-enabled Powered Speaker with MP3 Player

The new ZZPK series is an exceptional solution for PA amplification, a compact 2-way speaker with a built-in media player that makes it ideal for a multitude of applications:

Portable PA, Karaoke, monitoring, etc...

ZZPK combines a completely redesigned amplifier stage with a mixer that allows independent volume control of individual input sources.

The integrated media player allows playback of MP3 files from USB and SD sources. The built-in Bluetooth connectivity is not only dedicated to playback but also allows wireless pairing with other ZZPK series speakers using the TWS function.

The TWS mode allows the connection of another ZZPK series speaker in Bluetooth mode.

The LINE OUT output completes the excellent features of this speaker, allowing wired cascade connection of other amplified speakers of any type.
